Bourbon Circuit Court.

The June term of the Bourbon Circuit Court was convened in this city yesterday morning at 10 o'clock. Judge Robt. L. Stout is presiding and Commonwealth Attorney R. B. Franklin at his post of duty. The docket is a large one and it will be a busy term from all appearances when they settle down to business.

The following gentlemen compose the grand jury: E. T. Keeding, foreman; Clark Barnett, Dan Isgrig, Geo. K. Pepper, H. A. Roberts, J. E. Hunter, John Burris, J. Harry Holt, Thos. Gorham, Ewalt Haley, C. C. Collins.

Judge Stout's instructions to the grand jury were longer than any previous one he had ever delivered to a Bourbon county jury. He said it part: "That Bourbon county should be proud of passing through the troubles of the past few months without having been visited by the rail-riders. That he had been informed by the officers of the county that there has not even been a suspicion of trouble of any kind. That the citizens were free from criticism, and that Bourbon had heretofore maintained her high standard of citizenship through her grand juries. That lawlessness cannot be indulged in in Bourbon without somebody being punished for it. He asked the question, why had soldiers been in her borders? He told them to ask themselves the question and that it was their duty to investigate. He said you cannot justify lawlessness for expediency, that night riders nor soldiers can violate the law. That these soldiers who are riding about the country or only entitled to the same privilege that any other citizen is entitled to. They are amenable to the law, no matter what authority they are not. Military authority is subordinate to the civil authority and he had never heard of the soldiers reporting to any civil authority. They are no better than marauders, and he had heard of them frightening and threatening a young man in Bourbon. He wanted them to investigate thoroughly and indict the soldiers if they could find enough evidence for them to do so.

He referred to the liquor, gaming laws and told the jury to retire to their room.

After Court had adjourned until this morning, Judge Stout called the members of the bar before him for an expression from them in regard to attending the Democratic State Convention at Lexington Thursday. It was decided to adjourn Court Wednesday afternoon until Saturday morning. However, if the convention adjourns Thursday night he will hear motions Friday morning.

Buys Danville Property.

Dr. D. S. Henry was in Danville last week where he closed a deal for the purchase of 15 acres of land close in to the best residence section, price private. Dr. Henry will plot the tract of ground which is almost level, put in concrete walks and offer the entire property for residential purposes, the sale of lots to take place in the near future.

Reckless Automobilists.

The time has arrived when the city officials must take summary action in regard to the speed limit which is being violated by automobile parties that daily visit our city, and thus probably save the lives of some of our citizens whose safety is at present in jeopardy when such little attention is given to this important ordinance.

The reckless driving of these machines is particularly noticeable on South Main street, which has become a veritable speedway for autoists. Several weeks ago a young lady residing in this portion of the town miraculously escaped from being run over by a party, who were evidently intoxicated, and who, it seemed, purposely steered from their course to run over and kill several valuable dogs, and at the same time narrowly missed a boy who was on the sidewalk sprinkling the street.

The speed limit should be rigidly enforced, which would bring a stop to these almost daily occurrences, which if passed unnoticed by the officials, will increase, and eventually result in the death or permanent injury to some child or grown person.

A Liberal Offer.

Notice.

Since all merchants of Paris and those whom we owe, wholesalers, grocers, butchers, bakers, etc., require payment of their bills monthly and moreover since the majority of our customers are paid weekly or monthly, and since payment would be easier, therefore, we, the undersigned, will conduct our business on a thirty day basis. After the first day of July all accounts will be due the first day of each month.

DEATHS.

Miss Laura Gratton Eastin, daughter of Mrs. H. C. Bailey, died at Atlanta, Ga., where her family had recently moved from Chicago, Thursday night. She was a granddaughter of Mrs. Laura Hanley, nee Hukill, formerly of this city, and had been an invalid for a year. The remains arrived here Sunday morning at 5:30 and were removed to the residence of Mrs. C. L. Hukill, on Mt. Airy avenue, where the funeral services were held at 3:30 Sunday afternoon, conducted by Elder Carey E. Morgan and Elder J. S. Sweeney. The interment took place in the family lot in the Paris cemetery.

Mr. W. S. Tuttle, aged 55 years, died Saturday night at 12:30 o'clock, at his home near Monterey, this county, of appendicitis. Mr. Tuttle was operated on Saturday afternoon and lingered until the time mentioned above. He was one of our highly respected farmers.

The remains were taken to the residence of his son, W. R. Tuttle, near Winchester, the old home of the deceased, Sunday, from which place the funeral services were held yesterday afternoon at 2 o'clock. Burial in Winchester cemetery.

He is survived by his wife and four daughters and two sons—Mrs. Florence Ecton, of Winchester; Miss Lizzie Tuttle, Mrs. Lizzie Perkins, Mrs. Stanley Rummans, of Bourbon; W. R. Tuttle, of Clark county, and James K. Tuttle, of California.

Miss Corne Florence James, aged 23 years, daughter of the late Samuel A. James, died at the home of her mother, Mrs. Wm. J. Kennedy, in Carlisle, yesterday, about one o'clock of consumption.

The deceased was well-known in this city, where she had often visited her uncle, H. O. James and her aunt, Mrs. Corne Watson Baird. She was a handsome and attractive young lady, the very picture of health up to a year ago, when she contracted a terrible cold which resulted in tuberculosis. She had only recently returned home from Asheville, N. C., where she had been seeking health.

Funeral services will be held at the Methodist church in Carlisle, Wednesday morning at 10 o'clock, after which the remains will be taken to Millersburg for interment.

K. of P. Memorial Services.

Memorial services in honor of the departed Knights of Pythias were held Sunday afternoon in the Paris cemetery by A. J. Lovely Company, No. 31, uniform Knak K. of P., in the presence of near 1,000 persons.

The company, thirty-five strong, in command of Brigadier General Louis Mussinon and Captain Frank M. Faries, preceded by the Second Kentucky Regiment band, of North Middletown, marched to the cemetery, where on a little mound beneath the spreading branches of trees of cedar and elm, an improvised platform had been erected, at the foot of which was a grave decorated with a profusion of cut flowers and evergreens.

After the rendition of a beautiful hymn by a quartet composed of Dr. Frank Fithian, Mrs. Fannie Belle Sutherland, Miss Flora Hill and Mr. Frank Walker, Elder Carey E. Morgan delivered the invocation. Postmaster J. L. Earlywine then delivered an appropriate and eloquent address, followed by Elder Morgan who paid tribute to the memory of the departed. Each individual grave was then decorated with flowers after which the crowd dispersed.

Roosevelt Extravagance.

The mere statement of the figures of Government revenues and expenditures, as cited by Senator Culbertson, for the six years 1903-1909 is an appalling exposure of extravagance. During that period President Roosevelt has been the dominant leader of his party. He has dictated the country's policies and directed its finances, and as a result he has brought the Government within sight of a deficit which in the next year promises to wipe out all the savings of the United States Treasury during the long era of unparalleled prosperity since the war with Spain.

The session of Congress just ended has not only appropriated \$1,008,000,000—much less than President Roosevelt demanded—but it has raised the total appropriations to \$90,000,000 more than the aggregate expenditures of 1908, for which a deficit of over \$70,000,000 is now assured. In the six years since 1903 there has been an increase of about 40 per cent. in expenditures, against an increase of only 12 per cent. in population.

Taking the two items of the army and navy, which Mr. Roosevelt has used all his influence to have increased, the expenditures for the last six years exceed those for the six years from 1898 by \$416,000,000 for the army, or over 137 per cent., and by \$428,000,000 for the navy, or almost 236 per cent. In six years Mr. Roosevelt has had about one and one-third billions of dollars to spend on the military and naval establishments, and is dissatisfied because he has not had more.

Not less startling is the rapid increase in new offices under the Roosevelt Administration. This year the number was 23,784, costing \$16,156,000 and in the six years 1903-1908 the total number of new offices created, aside from many commissions, has been 99,319, entailing an additional expenditure of nearly \$70,000,000. By comparison, during the six years of the Cleveland and McKinley Administrations from 1893 to 1898 only 10,279 new offices were created, at an expenditure of \$6,000,000.

Mr. Roosevelt would bankrupt any treasury, whatever its resources, with his military and other magnificent projects. But that he should have failed to take warning last fall when the Government revenues rapidly declined and the country's trade suffered a sudden relapse proves beyond question his incapacity for the business management of a great nation. All his efforts have been to incite Congress to further wasteful legislation when conditions imperatively commanded caution and economy.

The Leader vs. the Boss.

The leader is not a man who thinks for the people but a man who thinks with the people. The leader is going in the same direction that the people are going—far enough ahead to be in advance but not far enough to be out of sight. The leader is not only in sympathy with the people but he relies upon persuasion to influence them. He presents his arguments to them but recognizes the right of the people to reject any proposition submitted by him. The leader's title to leadership rests upon his ability to propose the best thing at the right time and, as those who follow the leader follow him voluntarily, he must appeal to their conscience and their judgment. The leader is a moulder of opinion—he merely expresses it in effective language. As Thomas Jefferson simply put into appropriate words the aspirations of the people, so, today, the leader—the moulder of public opinion—coins into current language the sentiment like precious metal, which experience brings forth from humanity's great storehouse.

The boss, however, is an entirely different character—if the word "character" can be applied to one who is often without character. The boss has no sympathy with the people; he has his own interests to serve and whatever authority he can secure he turns to his private advantage. The boss is an embezzler of power and, measured by every moral standard, he is in the same criminal class with the embezzler of money. The boss has introduced greed, corruption and intimidation into politics and he will go out when these are eliminated. "Let the people

rule" is as much a terror to the boss as the commandment, "Thou shalt not steal," is to the thief. The primary is only a reaction from boss rule and, like every other plan for the bringing of the government nearer to the people, the primary system increases the relative influence of the real leader and lessens the influence of the boss, says the Commoner.

Desperate Conditions.

In the army the pull is mightier than the sword by all odds. It is no wonder that conditions in the military service, as described by Chairman Hull, of the House Military Committee are "desperate."

Mr. Hull's son was made Major, and soon afterwards, Lieutenant-Colonel in violation of the rule of promotion by seniority and merit. The son-in-law of Senator Warren, Chairman of the Senate Military Committee was promoted from the rank of Captain to that of Brigadier General at one bound, in violation of the same rule. Gen. Wood, for being a chum of the President, was raised from the rank of Colonel to that of Major-General. Political pull and personal favoritism have held the higher ranks of the army with incompetents; and this has disgusted the trained officers who have been kept down by that vicious policy.

It is now proposed to conciliate these professional military men by raising their pay; or in other words, by bribery. But the panic brought on by the extravagance and vicious tariff and financial legislation of the Republicans is likely to make the bribery scheme impossible, and many young officers will abandon the army for civil service. The private soldiers are already deserting by scores.

The Coal Trust.

The Coal Trust publicly informs us that the wage scale will remain the same as now until April 1, 1909, and although the cost of mining has greatly increased, the price of coal will be the same. There seems to be something out of gear in this information, for if the labor scale is the same the cost of mining coal can hardly be greatly increased. Then there is the automatic increase in the price of coal of ten cents a ton a month until September, which hardly agrees with the statement that the price will not be added to. We wish the God fearing Bro. Baer would explain these paradoxes. But one thing is certain the Republican Congress has been standing pat on the tariff to the evident advantage of the Coal and other trusts.

Of Interest To Women.

To such women as are not seriously out of health but who have exacting duties to perform, either in the way of household cares or in social duties and functions, which seriously tax their strength, as well as to nursing mothers, Dr. Pierce's Favorite Prescription has proved a most valuable supporting tonic and invigorating nerve. By its timely use, much serious sickness and suffering may be avoided. The operating table and the surgeon's knife, would, it is believed, seldom have to be employed if this most valuable woman's remedy were resorted to in good time. The "Favorite Prescription" has proven a great boon to expectant mothers by preparing the system for the coming of baby, thereby rendering childbirth safe, easy, and almost painless.

Bear in mind, please that Dr. Pierce's Favorite Prescription is not a secret or patent medicine, against which the most intelligent people are quite naturally averse, because of the uncertainty as to their composition and harmless character, but is a MEDICINE OF KNOWN COMPOSITION, a full list of all its ingredients being printed, in plain English, on every bottle wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure, triple-refined glycerine taking the place of the commonly used alcohol, in its make-up. In this connection it may not be out of place to state that the "Favorite Prescription" of Dr. Pierce is the only medicine put up for the cure of women's peculiar weaknesses and ailments, and sold through druggists, all the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too as remedies for the ailments for which "Favorite Prescription" is recommended. A little book of these endorsements will be sent to any address, post-paid, and absolutely free if you request same by postal card, or letter, of Dr. R. V. Pierce, Buffalo, N. Y.

A Pretty Big Discount.
"There was a children's hospital in New York which a society lady visited regularly, taking fruit and flowers to the little patients, and in a certain ward a boy was pointed out to her one day as a bad customer.
"Oh, he is incorrigible," sighed the nurse.
"Miss Society talked awhile with the little chap, and when she arose to go she said:
"See here, I have heard bad reports about you. Now, I want you to promise me to be good. If you are good for a whole week, I'll give you a dollar when I come again next Thursday."
"The boy promised to try to be good. This promise, though, he did not keep. On her next visit Miss Society, going to his cot, said:
"I shall not ask the nurses how you have behaved this last week. I want you to tell me yourself. Now, what do you think—do you deserve that dollar I promised you or not?"
"The boy regarded Miss Society with a troubled frown. Then he said in a low voice:
"Gimme a nickel."—New York Tribune.

Solution of a Mystery.

Str Humphry Davy had been studying one evening in comfortable negligence of dressing gown and nightcap at a little table in his chamber when he became aware of a curious phenomenon. A bright dancing circle of light appeared upon the ceiling. It was unsteady, yet persistent, and he was unable to account for it. He extinguished his lamp, but it only appeared the brighter. It was accompanied by an odor—a scorching odor—and also by a slight sound of sizzling. He was greatly excited and running over rapidly in his mind all kinds of electrical and other interesting theories to account for the mystery when he became aware of a sensation of uncomfortable warmth about the scalp. He hastily put up his hand, and down tumbled his theories and a blazing nightcap. The tassel on its peak had bobbed into his candle as he bent above his book, and the fascinating problem on the ceiling was no more than the reflection of the evening bonfire on his cranium.

An Object Lesson in Cleanliness.

To impress upon his youthful mind the importance of guarding against infections the medical student at the laboratory is given this object lesson: Two test tubes nearly filled with a clear meat broth and then closed at the top with a cotton plug are given to him, with directions to wash his hands with soap and water and clean his nails with a brush as thoroughly as he can for some ten minutes. After he thinks that his hands have become altogether clean he removes the plug from one of the test tubes and barely touches with a finger tip its contained broth, after which he restores the cotton plug and puts both tubes away on a shelf for twenty-four hours. What he will see then is that the broth in the test tube which received his supposedly pure touch is turbid from the presence of millions of microbes, while the other tube remains perfectly clear.—Everybody's Magazine.

A Haunted Library.

One of the most curious "hauntings" occurs in a northern castle of great antiquity where Mary, queen of Scots, rested when she was being conveyed a prisoner through England. It is manifested in the library and takes the form that the books cannot be kept in order. They move about or are moved about from shelf to shelf. If you arrange the works of Shakespeare in correct order on one shelf, by next morning the volumes are scattered anywhere on different shelves. This has gone on for years. At different times the library has been searched and locked, watches have been set all night, servants have come and gone, but the mysterious occurrence goes on and is vouched for not only by the family, but by the guests who have stayed in the house. There is no legend to account for it.—London Modern Society.

A Long Scold.

Brewster, who was returning late from his club, was received by his wife on entering the bedroom with a well rehearsed curtain lecture. Fortunately he had not turned up the gas, and as the door was not closed he quietly slipped out and rejoined his friends at the club. Two hours later he again wended his way home and picked up his ears on reaching the bedroom door.

"H'm! She didn't notice it!" said he, chuckling to himself. "She's still scolding!"—Glasgow Herald.

Much Impressed.

Professor of Natural History (at the zoo)—In the animal creation some of the works of nature fill us with awe and admiration for their stupendous size and weight and the colossal proportions on which they are modeled. Here, for instance, is the hippopotamus—Giggly Pupil—Ain't he cute?—Baltimore American.

An Invincible Intruder.

"There are lots of things worth having besides money."
"Yes," answered Miss Cayenne, "but it's hard to get most of them unless you have the money first."—Washington Star.

Why It Is Stranger.

"Truth is stranger than fiction," quoted the wise guy.
"That's because we don't get sufficiently well acquainted with it," added the simple mug.—Philadelphia Record

Insincerity in a man's own heart must make all his enjoyments, all that concerns him, unreal, so that his whole life must seem like a merely dramatic representation.—Hawthorne

THE LIVER QUARANTINE

"TAKING HIS MEALS OUT."

Hurried eating has ruined many a man's stomach. The digestion-destroying process is gradual, often unnoticed at first. But it is only a short time until the liver balks, the digestive organs give way, and almost countless ills assail the man who endeavors to economize time at the expense of his health.
A torpid liver causes a quarantine of the entire system. It locks in the diseased germs and body poisons and affords them full play, inviting some serious illness.
In families where August Flower is used, a sluggish liver and constipation are unknown, so are all stomach ailments, as well as indigestion, dyspepsia, heartburn, headaches and kidney and bladder affections. No well-regulated family should be without this standard remedy.

WALTER A. WOOD

NEW CENTURY BINDER

This binder has a world-wide reputation. In every grain growing country under the Sun it is said to be the best yet by all who use it or see it work. The features that appeal most to its users are:—lightness of draft; handiness of operation; durability of construction; ability to do perfect work in any kind of grain; accuracy and sure work of knotters; absence of neck weight and side draft. The New Century is the latest type of binder, made by the people who gave the world its first successful binder, and now give it its most successful one—a binder that

will do work no other machine can do.

It is constructed on principles and from materials that insure more work, better work, longer life and reduced repair bills with less loss of time. We'd like to send you our free catalog describing it in full before you decide on which binder to buy.

WALTER A. WOOD MOWERS

Are Different From All Others

When the late Walter A. Wood built his first mower in 1882 it was upon a principle entirely different from any other. That same principle today distinguishes our mowers from all others. It is the "floating frame" described so fully in our catalog. All manufacturers of mowers admit that the "direct under-draft" principle is the correct one—but they can't use it because genuine under-draft is possible only with the "floating frame" construction which is exclusive to Walter A. Wood Mowers. We feel justified in asserting that our mowers are: the easiest running; lightest draft; handiest to operate; least expensive to keep in repair and longest lived. The mower that leads on these points is the mower it will pay the farmer to buy. There are many other good points fully illustrated and described in our Catalog. Write for it today.

Popular Dean Lee in Bad.

A special from Los Angeles, Cal., to Sunday's Cincinnati Enquirer, says: "Although drawing a salary of \$4,000 to \$6,000 yearly and having free use of a \$12,000 house for several years, and having borrowed from the vestrymen and other parishioners more than \$30,000, Rev. Baker P. Lee, pastor of Christ church (Episcopal), obtained from a money lender \$600 at 10 per cent. monthly, giving a chattel mortgage on rectory furniture. "The recording of the mortgage brought out the disclosure, and Bishop Johnson ordered Wesley Clark to conduct an investigation. He found that Dr. Lee had raised more than \$30,000 for his personal uses, and members of the vestry demanded Lee's resignation, but he refused. "Rev. Lee said: 'This purely a personal matter, and I will make no statement.' "Judge Stephens, one of the vestrymen, said Lee had similar troubles in Kentucky. "At the meeting of the vestry the rector's expenses were restricted to \$20 a month until his debts are paid."

Should Be Treated Likewise.

Some negro threw a beautiful shepherd dog from the third story window at the Grand Opera House last Thursday evening during the Paris High School entertainment. The dog was instantly killed by the fall. If this culprit can be found he should be given the limit of the law. It would be too good for him to throw him from a third story window.

Let's have a roving meeting.

The speakers and subjects are as follows: "How We Succeeded in Winchester and How to Run a Commercial Club," Hon. Bev. Jouett, of Winchester; "Knocking and Boosting," Hon. Harmon Stitt; "The Future of Paris and Bourbon county," Hon. C. M. Thomas.

Blue Grass Harvest On.

The harvest of blue grass seed is on in earnest in this county and it will require fully ten days longer to gather all of the seed. Hundreds of machines are in operation and every available laborer is at work drawing good wages. Many wagon loads of seed have already been hauled to the Paris ware houses, while thousands of bushels are being cured on the open ground. Five thousand dollars in silver were drawn from the banks in this city Saturday to pay hands working in the seed.

Homeward Bound.

In a letter to a friend in this city, written at Shihuahua, Mexico, Ben Downey, who has been in the Southwest for the benefit of his health, states that his condition is somewhat improved and he is now on his way to spend the summer with his friends in old Kentucky.

He relates his experience at a bull fight at Santa Rita, at Shihuahua, where six ferocious beasts were killed on the last day of the carnival. As usual, he has a supply of fish stories and tells of a 376-pound Jew fish that was caught at Tampico, N. M., where he will stop for a short outing and has hopes of landing one of these fish.

Downey has many friends in this city who will be glad to hear of the improvement in his health and that he will be among them the latter part of June to spend the summer months.

THE CAUSE OF THIS MIGHTY SLAUGHTER.

The critical moment has arrived—that is the situation—here now. The recent stringency of the money market has created a condition which has never occurred before. Circumstances have so shaped themselves that we are forced to slaughter our magnificent stock. We must raise money at all hazards. Our entire capital is tied up in merchandise. We therefore need relief. Heroic sacrifices are sometimes necessary. This is one of the times. We meet the situation promptly and emphatically. The urgent demand for money brought this gigantic money raising sale on Twin Brothers at Paris, which we pass along to you. The enormity of our stock, the vital danger and burden it applies at this critical financial stagnation forces us to reduce stock. Notwithstanding our reputation as givers of best values, we now give an extra twirl to the wheels of trade by offering such astonishing values that competition is not even attempted. It is not necessary to go into details relative to the high class merchandise we carry, for every man, woman and child in Bourbon County and vicinity is well aware of the fact that anything bought from Twin Brothers was the best that money can buy. Come and see for yourselves and be convinced.

Equality of the Sexes.

New Jersey, which recently sent a woman highwayman to jail, has now indicted a man as a "common scold."

He Got What He Needed.

"Nine years ago it looked as if my time had come," says Mr. C. Farthing, of Mill Creek, Ind. Ter. "I was so run down that life hung on a very slender thread. It was then my drug-gist recommended Electric Bitters. I bought a bottle and I got what I needed—strength. I had one foot in the grave but Electric Bitters put it back on the turf again." Harmonious Democratic State Convention Promised.

Lexington is making extensive preparations to entertain the State Convention and no effort will be spared to assure the comfort of every person who attends. The whole city is taking the greatest interest in the matter and all of the details are in the hands of committees composed of representative citizens.

There is every prospect now that the convention will be the largest in the history of the Democratic party in Kentucky. A large proportion of the population of the Blue Grass section easily reached by interurbans and steam railroads will turn out and reports come from every section of the State indicating an unusually large attendance.

One of the most encouraging features of the situation is the fact that there is a disposition in every part of Kentucky for the Democrats to get together, bury all of their fractional differences and unite for a great Democratic victory. The Republican Convention recently held in Louisville was marked by a bitter struggle between the two factions. Nearly half of the seats in the convention were contested. It is now probable that there will not be a single contest in the Democratic Convention to be held in Lexington.

Reliable information from those parts of the State where there was the greatest danger of factional strife is to the effect that the factions are getting together, and the convention now promises to be not only the largest but the most harmonious ever held by Kentucky Democrats.

Encountered Heavy Rainstorm.

The big balloon "Chicago," which left Quincy, Ill., at 6 o'clock Tuesday night, ran into a heavy rainstorm and dropped to earth at a point six miles southwest of Clear Lake. It was in the air eleven hours and made an average speed of seventy-five miles an hour.

"Teddy" Again on Warpath.

The President is said to have started on another campaign against "predatory wealth." First he will attempt to indict the Print Paper Trust; second he will seek to indict financiers whom he believes responsible for the panic that followed his attack on the Standard Oil Company, which he is said to have ordered removed on the belief that the \$20,000,000 fine will not stand the test of the courts.

Taken at His Word.

"Pinch me if I fall asleep," muttered the Stewed Stude as he lurched against the lamp-post, and the Proud Minion of the Law proceeded to do as he was bid.—Yale Record.

Ordered Two Depots.

The railroad Commission Wednesday entered an order directing the C. & N. O. and T. P. Railway to erect a new passenger and freight depot at Georgetown to replace those that burned several months ago. Capt. J. C. Jackson and F. M. Thomason, representing the Georgetown Commercial Club, appeared before the Commission and urged the action that was taken. The new depots must be such as to meet the approval of the Commission and the Georgetown Commercial Club.

The First Tobacco Crop in Bourbon.

Hon. Green R. Keller, an old Bourbon boy, has the following to say about the Bourbon tobacco crop in his paper, the Carlisle Mercury:

"While in Bourbon last Sunday we saw one crop of tobacco—about an acre—and strange to say it is on the farm where the first crop of tobacco ever raised in Bourbon saw the sun. Somewhere near fifty years ago Perry Wornall, Esq., living on the Cynthiana and Paris pike near Ewalt's cross-roads experimented with a crop that brought him out in debt. It was before the White Burley discovery, and the plants grew so rank that they looked to us as large as half grown fruit trees. He had had no experience in the business and of course the crop was badly handled. People came for miles to see it and on Sundays hundreds gathered about the patch to view and discuss the new crop. The ground had been used for a stable lot for many years and the soil was rich enough to grow anything that could be grown anywhere on earth. It was quite a number of years after the first attempt before another crop was grown, and strange enough, as we say, the present crop is within a few hundred feet of the first."

Will Purchase Time Lock Sales.

The Capitol Commission will purchase three large safes with time locks for the office of the Governor. Secretary of State and Treasurer. Smaller safes will be provided for other State officials.

Night Riders Acquitted.

George Powell and Herman Richard Greenhaw, alleged night riders, were promptly acquitted by the jury at their trials at Hopkinsville. Warrants were issued for six other farmers charging them with the same offense.

Taft Delegates Seated.

The National Republican Committee Friday began its hearing of contests at Chicago, the result of the first day's session being a sweeping victory for the Taft forces. The delegates-at-large of the Thompson faction in Alabama, and all of the district delegates of that faction were seated, which gives Taft a solid delegation from Alabama on the temporary roll call. The Taft delegation from the Fifth Arkansas district was ordered seated.

High-Class Vaudeville This Week

A first-class vaudeville show is still being given nightly at the Paris Grand by McMahon and Jackson. A change of program greeted the large audience last night. The attractions this week will be unusually strong. The Debut Duo, popular juvenile artists, and Bod Cunningham, vocalist, animated pictures and illustrated songs. Tonight there will be an apple eating contest.

Thursday will be another complete change—West and Benton and Tom Ward. There will be something new every night and the management is determined to make the Paris Grand the most prominent place in town, so follow the crowd and you will not regret it.

Paris Lady Elected to State Office

Spirited balloting resulted in the election of the following officers of the Kentucky Federation of Woman's Clubs at Paducah at Thursday morning's session: President, Mrs. Letcher Riker, of Harrodsburg; first vice president, Miss Luella Boyd, of Covington; second vice president, Mrs. James A. Mitchell, of Bowling Green; third vice president, Mrs. James A. Rudy, of Paducah; fourth vice president, Mrs. Ida Withers Harrison, of Lexington; recording secretary, Miss Lillian Lindsey, Frankfort; corresponding secretary, Miss Haldon Hardin, of Harrodsburg; treasurer, Mrs. H. C. Muir, of Nicholasville; federation secretary Mrs. C. P. Weaver, Louisville; auditor, Mrs. Frank P. Lowry, of Paris. Mrs. Desha Breckinridge, of Lexington, was elected delegate from the Kentucky Federation to the General Federation in Boston June 22, and Miss Lilla Breed, of Louisville, was elected alternate.

Little could be learned about the probable place for the next meeting, though it is known Harrodsburg, Owensboro and Louisville are in the race. This will be decided in the executive board meeting. With the business session Thursday afternoon the federation proper came to an end.

A Missouri Opinion.

The Supreme Court of Missouri handed down an opinion Saturday deciding that liquor dealers have a right to ship intoxicating liquors into local option counties C. O. D. when sale is made where shipment is made.

Mrs. Harmon Receives Serious Injuries.

Mrs. Jean Harmon, while going down the steps into her cellar at her home on Walker avenue, yesterday afternoon, she slipped and fell to the concrete floor. Her shoulder was dislocated and one of the bones badly crushed.

Directory for Paris.

The representative of the Inter-state Directory Company is now here delivering and taking orders for a directory of Paris, Millersburg and North Middletown and Bourbon County Gazetteer. One of these directories is sold by in retail every business house in the county. It is gotten out in good style and one of the most useful books we have seen lately. We will give a more extended notice in next issue.

Republican Platform.

The platform which the Republican National convention will adopt has been practically completed. It contains an unequivocal endorsement of the President and his policies, and calls for tariff revision.

\$9,000 Verdict.

At Nicholasville, Eugene Moynahan & Son were given a \$9,000 verdict against The Courier-Journal because that paper stated that said firm was held men in peonage at their rock quarry.

LIVE STOCK AND CROP NOTES

—Robertson county has a larger and finer crop of hogs and a greater number of fresh milch cows than the county has ever had in any previous year, says the Mt. Oliver Tribune.

—In the dark district cutworms and grasshoppers are cutting down the tobacco plants almost as fast as they are set out, one correspondent reporting more than half the plants transplanted as having been destroyed.

—The Atchison Globe says very little tobacco will be grown in North-western Missouri this year. A black bug of unknown species, has destroyed the plant beds and it is too late to plant beds now.

—Reports received by the Commissioner of Agriculture show that the canning business in Kentucky is becoming a large and important factor in the business of the State, and nineteen cities and towns now have factories in which fruit and vegetables are preserved and prepared for the market.

—The top price for cattle on the Chicago market last Wednesday, was \$7.60.

—At a recent sale of Angus cattle held by Chas. Escher & Son, at Botna, Iowa, 42 females averaged \$285.11, and 14 bulls averaged \$172.50.

—Exports of live stock from this country to foreign countries during the month of April, 1908, are reported at 36,067 head against 59,735 head exported in April of last year.

—Reports from Wyoming state that the snow storms and wet weather of April and May has caused the greatest loss of shorn sheep and young lambs ever known in that State.

—The clip of Wyoming is expected to be at least 35,000,000 pounds this year, as against 33,500,000 in 1907. This year's wool is said to be of longer staple and finer quality, with a probable average close to eight pounds per fleece, compared with 7.2 last year.

Shot at By Soldiers.

While Rankin R. Whitsell, Charles Huis, Ernst Gillespie and others were out fox hunting Friday night they were fired on by soldiers guarding tobacco beds but no one was hurt. The soldiers, it is said, did not hear the fox hounds and mistook the hunters for night riders.

The soldiers are being censured for the shooting, it being said that thirty shots were fired. Tobacco plants are still being set out in Montgomery county, about one-seventh of the 1907 crop being under cultivation.

Especial Bargains in Lots.

I have some especial bargains in town lots left. One good one for \$150, on easy payment plan. Three with concrete walks, shade trees and city water, etc., for \$220 on easy payment plan. I will be glad to talk to you.

Hoke Smith Defeated.

Gov. Hoke Smith was defeated for re-nomination in the Georgia Democratic primary yesterday by Joseph M. Brown by a majority conservatively estimated at 15,000. Brown's managers say that his majority may go as high as 50,000. All the present Congressmen are believed to have been nominated. Senator Clay had no opposition.
